

UPSTART UNIVERSITY REDEEMABLE TUITION

At Upstart University, we know that real-life experiential education is just as important as intellectual education. So, we've worked out a special deal so you can get both opportunities for the price of one.

Upstart University students have exclusive access to redeemable tuition.

WHAT'S REDEEMABLE TUITION?

Twice the value for your money.

Twice the value for your money - Every dollar of your tuition is fully redeemable toward Bright Agrotech's ZipGrow Tower Commercial Bundles (U.S. & Europe only) within 1 year of purchase.

ZipGrow Towers are compatible with other growing systems like DWC, Bato Buckets, NFT, etc. So whether you plan to grow with a variety of methods, or you're looking to focus on vertical production, this is a great opportunity to invest in your education, while simultaneously investing in your physical farm too.

Here's how it works:

If you're interested in ZipGrow Towers and would like to take advantage of Upstart University's redeemable tuition, simply contact the Bright Agrotech sales team in the U.S. (307-288-1188) or Refarmers (contact@refarmers.co) when you're ready to purchase your ZipGrow Commercial Bundle. They will help you process your purchase, and discount the amount of tuition you have available to be redeemed.

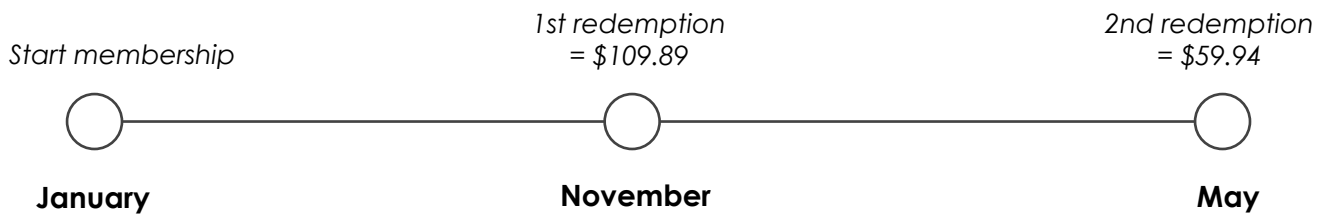

Calculating your available tuition to be redeemed:

Monthly subscription cost (\$9.99) x the number of months you have purchased in the past 12 months = amount of available redeemable tuition in dollars.

For example, say you've been in Upstart University for 11 months. That means you currently have $\$9.99 \times 11 = \mathbf{\$109.89}$ which can be discounted on your purchase of a ZipGrow Bundle.

Once used, your available credit starts over. If you decide to purchase another bundle after 6 more months, you would have $\$9.99 \times 6 = \mathbf{\$59.94}$ available to redeem.

**** Note: The max amount of redeemable tuition is \$119.88 (or 12 months of tuition).**

Annual subscription cost = \$99 = **\$99** available to redeem within one year of payment.

1st redemption available immediately in the next 12 months

Upstart U redeemable tuition is now available to customers purchasing ZipGrow Towers from [Bright Agrotech](#) (U.S.) and [Refarmers](#) (Europe).
